# KOBRA SWEEPER

## AVAILABLE VERSIONS

KOBRA SH – with petrol engine, Honda

KOBRA EB – battery driven

## KOBRA - PEDESTRIAN SWEEPER

### Pedestrian Vacuum Floor Sweeper Machine

Ideal for the fast, efficient sweeping of small & medium size areas.

The Kobra has a main brush of 550 mm, a total sweeping path of 780 mm, and boasts a working capacity of 3510m<sup>2</sup>/hr.

The Kobra's main brush, is made of PPL plastics, allows for thorough cleaning of even the dustiest floors and narrow areas. The Kobra is equipped with a capacious rear dust collector and an ultra efficient polyester bag filter which ensures effectively dust free (99,9%) with maximum filter life and minimal maintenance.

#### ANTI-SHOCK MATERIAL

The body of the machine is made-up with a special anti-shock material to protect the Kobra from unwanted damage

#### ERGONOMIC & INTUITIVE DASHBOARD

The Kobra dashboard, located on the hood, is very ergonomic & intuitive, it includes vacuum cut-off device, side brush raising \ lowering device and key switch

#### OPERATOR-FRIENDLY REAR CONTAINER

The large capacity rear container means minimum time loss for emptying. It is mounted on wheels, & equipped with a comfortable handle to allow for easier emptying

#### ADJUSTABLE HANDLE

The adjustable handle allows for improved working comfort and greater maneuverability, as it can be easily adapted to the height of the operator.

#### FRONT FLAP LIFT DEVICE

The machine is equipped with a front flap lift device to allow for easier pick up of bulky debris

#### TRACTION

The Kobra walk behind sweeper is available either EB (battery powered) or SH (driven by petrol engine Honda motor)

#### EASY ACCESSIBLE BRUSHES

The main and side brush can be easily accessed and quickly replaced

#### POLYESTER BAG FILTER

Fine dust is filtered through a polyester bag filter for an excellent filtering rate (99,9%) & has a much longer lasting life than traditional filters. The filter can be cleaned thanks to an efficient mechanical shaker
