HOW IT WORKS

CUSTOMER COMMENTS

Small, compact but very capable in even the dustiest environments.

Does exactly what it says on the tin.

To say I was surprised at the performance of this little machine is an understatement.

I was so happy with the little Picobello that I decided to buy one at the end of the hire.

The Picobello is a fantastic sweeper not only does it lift everything it keeps the dust down as well.

Fantastic in big areas & no worries about electric cables,
