

The BL 45 JC Z22 Brushless industrial vacuum cleaner is an ATEX Z22 certified industrial vacuum cleaner. Suction takes place thanks to a high-performance Brushless motor that guarantees silence and power. The BL 45 JC Z22 Brushless industrial vacuum cleaner has a large surface filter (35,000 cm²) certified in class M, with a filtration efficiency of up to 1 micron. On request, it is possible to install an absolute filter H14 to vacuum even the finest dust. On this vacuum cleaner, there is a semi-automatic JetClean® filter cleaning system that allows you to clean the filter without having to stop the suction. The material is collected in an AISI 304 stainless steel container, on wheels, with a capacity of 45 litre.
